

## Does **Memory Loss** Affect You, Your Family or Your Friends?

Researchers in the Department of Biology at North Carolina A&T State University are conducting research on Alzheimer's Disease in African Americans. Alzheimer's affects African Americans more than other races.

**Today, there is no cure.**

We are seeking **two or more family members** affected with memory loss or dementia.

Study participants are not required to travel and they receive monetary compensation.

Alzheimer's. It runs in **OUR** families.

Contact us today if you are interested in our study  
or if you wish to refer someone.
